COMMUNITY ASSESSMENT

FOR PORTAGE LA PRAIRIE

LAND ACKNOWLEDGMENT

The Community Foundation of Portage and District acknowledges that we live, work and serve on Treaty 1 Territory and that the land on which we gather is in the traditional territory of Anishinaabe, Cree, Ojibway, Oji-Cree, Dakota and Dene Peoples, and the homeland of the Red River Metis.

We respect the treaties that were made on these territories, we acknowledge the harms and the mistakes of the past, and we dedicate ourselves to move forward in partnership with Indigenous Communities in the spirit of reconciliation and collaboration.

This report is prepared for the sole use of The Community Foundation of Portage and District. No representations of any kind are made by Urban Systems Ltd. or its employees to any party with whom Urban Systems Ltd. does not have a contract. © 2023 URBANSYSTEMS®.

A MESSAGE FROM OUR EXECUTIVE DIRECTOR

The Community Foundation of Portage and District (CFPD) is a public foundation serving the charitable needs of donors and grant-seekers in the City and Rural Municipality of Portage la Prairie. In order to better understand the needs of our community now and into the future, CFPD – with the support of our partners in the community – has co-ordinated the preparation of this Community Assessment to provide a snapshot of the opportunities and challenges present in our community. The Community Assessment can also provide a benchmark by which we can measure our progress.

On behalf of the Board and Staff of the Community Foundation of Portage and District, we sincerely appreciate the time and effort of all community members involved in the preparation of this report as well as the efforts of everyone involved in making our community a better place to live, work and play, now and forever.

Kimberly Lavallee
Executive Director

PROJECT BACKGROUND

The Community Foundation of Portage and District is a public foundation serving the charitable needs of donors and grant-seekers alike in the City and RM of Portage la Prairie. The contributions of donors, from all walks of life, are pooled into permanent, income-earning Endowment Funds, which continue to grow in order to provide funding for local community priorities for many years to come.

To better understand and further the needs of the community, the Community Foundation of Portage and District, in partnership with the Portage la Prairie Regional Library and the Portage la Prairie Community Revitalization Corporation developed this community assessment. The purpose of the assessment was to use local knowledge to measure the vitality of the community and support action towards improving the collective quality of life. Local data was gathered through a variety of sources to support evidence-based, locally-relevant solutions to improve the quality of life at the community level.

KEY FINDINGS

A Community of Many Strengths

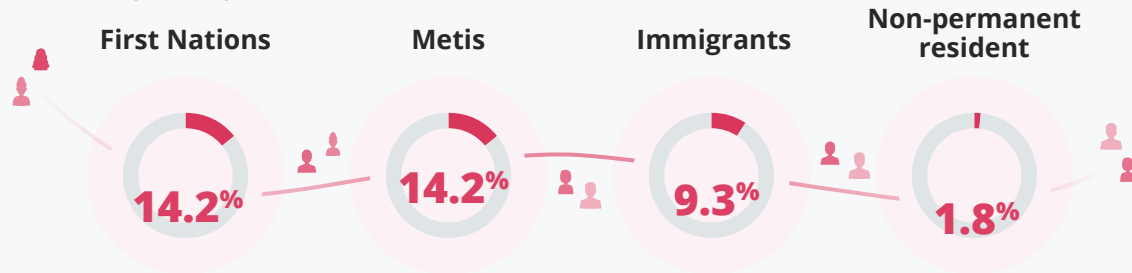

Community members and stakeholders identified many positive things to celebrate about Portage, including the community's cultural diversity. Indigenous culture is a key component of this. As of 2021, nearly a third of the City and one-fifth of the Rural Municipality's population identified as Indigenous. Of these, half of the City's Indigenous residents identified as First Nations and half as Metis. In 2019, the Portage Community Revitalization Corporation conducted an Urban Indigenous Study and collected responses from 386 First Nations and Metis residents living in or near the City. Three-quarters of these respondents felt that Portage was a welcoming and friendly city for Indigenous people, while 69 percent felt that relationships between Indigenous and non-Indigenous people in Portage were improving.

There are also many newcomers in Portage that add to the cultural diversity of the community. As of 2021, 11 percent of City residents were immigrants or non-permanent residents from many countries, including the Philippines, India, the United Kingdom, Nigeria, and Pakistan. In 2020, the Portage Local Immigration Partnership surveyed 67 newcomers about their experiences in Portage. Roughly 93 percent of these respondents said Portage provided educational opportunities for newcomers. One example is the Portage Learning and Literacy Centre (PLLC), a non-profit that provides settlement services, adult education, and language training for newcomers. These newcomers share their cultures and languages with the community, adding to the diversity of Portage.

City of Portage la Prairie

Community Survey, June 2022

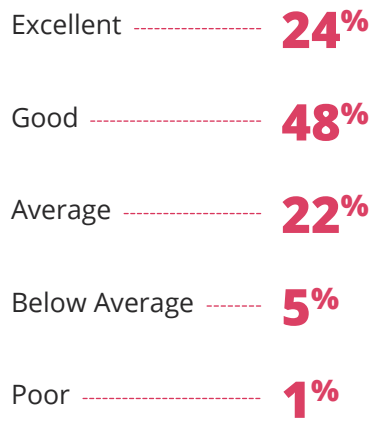

In June of 2022, a survey was conducted within Portage la Prairie from 695 respondents to gather the opinions of residents on topics related to their community. Residents indicated that they feel included in Portage and think that the strong sense of community is worth celebrating. In the survey, respondents were asked whether they agreed with the statement “I feel welcome and like I belong in Portage.” Over 62 percent of respondents said they agreed or strongly agreed with the sentiment, indicating a strong sense of community among residents. When asked what Portage should celebrate, one respondent said, “The people in the community and their caring thoughtful ways they demonstrate that they care and are willing to help other people in need.” Another said, “Portage is a wonderful caring community with many hard working residents.” A third respondent said “It’s a caring community. Lots of goodwill and volunteers.” Many stakeholders highlighted this strong sense of community among residents.

“I feel welcome and like I belong in Portage.”

Community Survey, June 2022

Perception of Parks and Green space

Community Survey, June 2022

Another strength that community members highlighted was Portage's natural environment and local parks. There are several parks in or near the City of Portage. These include Island Park (featuring Splash Island Waterpark), Rotary Republic Park, Beaver Stadium, Delta Beach Campground, Yellow Quill Provincial Park, and Portage Spillway Provincial Park. Community members rated these parks highly, with nearly a quarter of survey respondents saying they were excellent. Roughly half of respondents said they were good quality. Survey respondents were also asked to rank the best things about Portage. The third and fifth responses were parks and the natural environment. When asked for details, one person said, "Beautiful spaces... parks, green spaces, Crescent Lake." Another said, "Our beautiful lake and park."

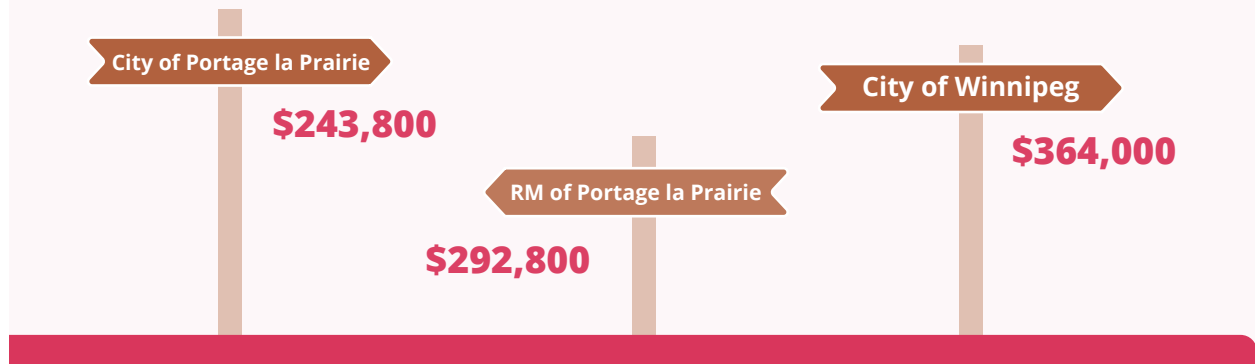

Image source: Yvette Cuthbert

Finally, residents also emphasized the relative affordability of Portage la Prairie compared to larger urban centres. As of 2021, the average value of residential dwellings was \$243,800 in the City and \$292,800 in the Rural Municipality. This is more affordable than the City of Winnipeg, where the average median dwelling was valued at \$364,000. Similarly, the average rent is more affordable in Portage than Winnipeg. In 2021, the average 2-bedroom apartment rented for \$1,049 in the City of Portage and \$1,317 in the City of Winnipeg. However, it is important to note that Portage was not affordable for all residents.

Average Value of Dwellings

Statistics Canada, 2021

OPPORTUNITIES FOR IMPROVEMENT

Community members were also asked to identify opportunities for improvement in Portage la Prairie. The region has a higher crime rate per capita than the province overall. The most common type of crimes were property crime violations and criminal code violations. In the community survey, more than half of respondents said they were very concerned about crime, while another third of respondents said they were somewhat concerned. Only 12 percent of respondents said they were unconcerned or neutral about crime in Portage. In the same survey, half of respondents also reported feeling somewhat unsafe or not safe at all in Portage. This suggests there is a need to enhance community safety in Portage.

Another challenge that community members identified is poverty. As of 2021, more than 15 percent of City residents, including nearly 22 percent of youth, were living in poverty based on the low-income measure after tax (LIM-AT). Within the RM, roughly 8 percent of residents were living in poverty. In the same year, 15 percent of survey respondents said they experienced food insecurity. More than 40 percent of survey respondents also said they always or often experience stress about their personal finance, while another 37 percent said they sometimes experience this stress. Addressing these challenges will be key to ensuring the long-term vitality of Portage la Prairie.

UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS

The Sustainable Development Goals are a set of global goals developed by the United Nations that aim to address the major issues facing our world. Along with 192 other countries, Canada has pledged to support these goals, both at home and around the world. Each goal includes several targets and indicators. These goals and targets are incorporated throughout the community assessment to highlight how Portage can help address global challenges at a local scale.

THE GLOBAL GOALS

GOAL 1
End poverty in all its forms everywhere
Page: 11

GOAL 2
End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Page: 27

GOAL 3
Ensure healthy lives and promote well-being for all at all ages
Page: 27

GOAL 4
Ensure inclusive and quality education for all and promote lifelong learning
Page: 15, 17

GOAL 5
Achieve gender equality and empower all women and girls
Page: 27, 47

GOAL 6
Ensure availability and sustainable management of water and sanitation for all

GOAL 7
Ensure access to affordable, reliable, sustainable and modern energy for all
Page: 21

GOAL 8
Promote inclusive and sustainable economic growth, employment and decent work for all
Page: 11

GOAL 9
Build resilient infrastructure, promote sustainable industrialization and foster innovation

GOAL 10
Reduce inequality within and among countries
Page: 11, 41

GOAL 11
Make cities inclusive, safe, resilient and sustainable
Page: 21, 35

GOAL 12
Ensure sustainable consumption and production patterns
Page: 21

GOAL 13
Take urgent action to combat climate change and its impacts
Page: 21

GOAL 14
Conserve and sustainably use the oceans, seas and marine resources

GOAL 15
Sustainably manage forests, combat desertification, halt and reverse land degradation, halt biodiversity loss
Page: 21

GOAL 16
Promote just, peaceful and inclusive societies
Page: 45, 47

GOAL 17
Revitalize the global partnership for sustainable development

SUSTAINABLE DEVELOPMENT GOAL TARGETS

- TARGET 1-2** Reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions
- TARGET 8-3** Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services
- TARGET 8-5** Achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value
- TARGET 10-1** Progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average

TARGET 4-7

SUSTAINABLE DEVELOPMENT GOAL TARGETS

- TARGET 7·2** Increase substantially the share of renewable energy in the global energy mix
- TARGET 11·2** Provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with Disabilities and older persons
- TARGET 11·5** Significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations
- TARGET 11·6** Reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management
- TARGET 11·7** Provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities
- TARGET 11·B** Substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels
- TARGET 12·5** Substantially reduce waste generation through prevention, reduction, recycling and reuse
- TARGET 13·1** Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
- TARGET 13·2** Integrate climate change measures into national policies, strategies and planning
- TARGET 13·3** Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning
- TARGET 15·5** Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species
- TARGET 15·9** Integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts
